

Crete B Gone

Cement Dissolver

Description

Crete B Gone is a newly developed product from the research laboratory to accomplish tasks that beforehand have been handled with aggressive acids such as Muriatic and Hydrochloric Acid. Those materials are particularly hazardous to the individuals and also to the environment. From our Laboratories and derived from biodegradable materials made from sugar cane has come the **Crete B Gone**. It is effective in removing excess concrete build-ups on forms and other shapes where concrete has been used as construction material. **Crete B Gone** has sufficient quantities of wetting agents to allow it to penetrate the surface of the concrete to be dissolved. The product is formulated from mild organic acids that are derived from sugar cane and citrus products. It is to be used as is.

Technical Data

Color Clear

Use Instructions

Cement removal is effective and can be applied by spray, brush or roller and the effectiveness can be determined by the concrete sizzling and bubbling up upon application.

Safe Handling and Storage Instructions

Before handling and using, the Safety Data Sheet should be read and understood by all personnel in contact with this product.
